- Organization and time management skills

PROFILE

I am a Flutter developer with experience in building mobile applications. I have a strong understanding of Dart programming and I am proficient in UI/UX design, API integration, and database management. I am also skilled in testing and debugging applications.

In my previous role at HDFC Bank, I worked as a customer service manager. I am a results-oriented individual with a proven track record of success in managing customer relationships.

I am passionate about developing innovative mobile applications that can improve people's lives. I am a team player and I am always eager to learn new things.

PROJECTS

Foot Match Score App

Developed a dynamic foot match score application using Flutter and Firebase, featuring real-time updates, user authentication, and push notifications. Ensured a smooth user experience with efficient state management and a clean interface.

Streamit Movie App

Developed Streamit, a movie streaming application using Flutter, featuring movie browsing and search capabilities, multiple subscription plans, and a seamless user experience with efficient state management and a clean interface. responsive UI updates and secure data management.
